Sponsorships help **The Family Center** offer hope and resilience for families and their children through our life changing and family changing programs. Through our Family Resilience & Organizational Resilience efforts we help **3,000+** adults and positively impact the lives of **hundreds** of children.

Through strong partnerships our work both promotes safe, stable, and nurturing environments for children in our communities, **and** creates trauma informed cultures within the systems in which they often interact. Current partners include Davidson County Juvenile Court, DCS, Davidson County Sheriffs Office, correctional facilities, substance recovery centers, human trafficking organizations, and other nonprofits.

We're at the forefront of PACEs (Positive & Adverse Childhood Experiences/Adverse Community Environments) awareness and action... and enhance our evidence-based, evidence-informed curricula through the latest research that helps break cycles of trauma in families & children. Together with you we're **CHANGE AGENTS** for **CHILDREN** in our community!!

changing lives... changing families... changing children's futures
... breaking intergenerational cycles of childhood trauma

Join Us and help CHANGE THE TUNE for thousands of families
